

CARPET BORDER EDGING

The profitable additional business for you

if you bind the carpets efficient and inexpensive!

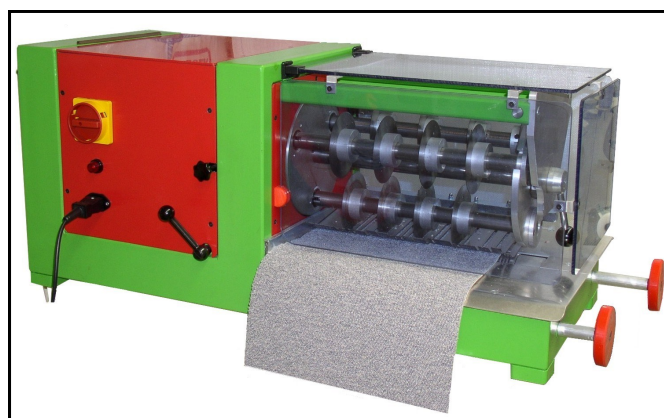

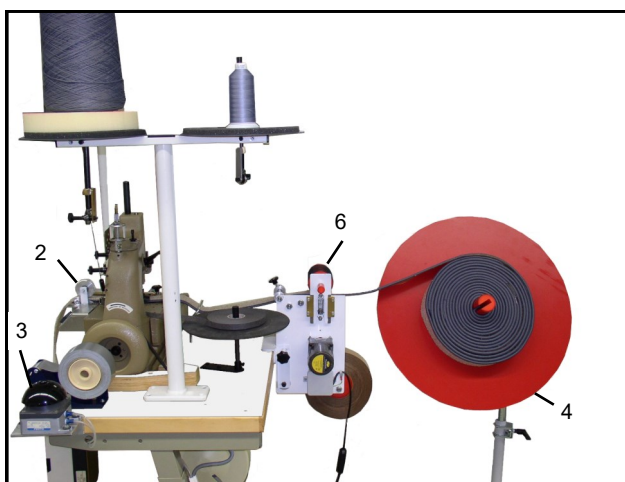

● ROBUST DESIGN

● EASY HANDLING

Binded borders – the optimal solution for customers and interior decorators

Binded carpet borders are becoming more popular and not only at large commercial buildings

- they can be made inexpensive from remaining carpet
- they look very good and optimally finish the carpet
- they can be fast and easily fastened to the wall
- they lay flat without problems around outer and inner corners
- they adjust to uneven walls

In addition to the Carpet Overedging Machine 81200AF/AG - reliable for decades - we offer the following parts:

1. Flexible Carpet Border Guide for easier overedging carpet borders, Part No. **999-269** (not shown).
